1. Methyl Ethyl Ketone (neurotoxin)
2. Cyclobexanone (neurotoxin)
3. Isopropyl Alcohol
4. Denatured Alcohol
5. Acetone (neurotoxin)
6. Urethane
7. Poly vinyl Chloride (neurotoxin)
8. Amine
9. Toluene (neurotoxin/carcinogen)
10. Dichloromethane (carcinogen)
11. Chloromethane
12. Ethyl acetate (neurotoxin)
13. Silicone
14. Sodium fluoride
15. Lead-based solder
16. Formaldehyde
17. Talcum power
18. Oakite (cleaning solvent)
19. Methyl 2-cyanoacrylates
20. Ethylene oxide (carcinogen)
21. Xylene (neurotoxin)
22. Hexon
23. 2-Hexanone
24. Thixon-OSN-2
25. Stearic acid
26. Zinc oxicide
27. Naptha (rubber solvent)
28. Phenol (neurotoxin)
29. Benzene (carcinogen/neurotoxin)
30. Lacquer thinner
31. Epoxy resin
32. Epoxy hardener 10 and 11
33. Printing ink
34. Metal cleaning acid
35. Color pigments as release agents
36. Heavy metals such as aluminum and platinum
37. Silica
